

Canonsburg Middle School

Vision Statement

Canonsburg Middle School will provide an academically excellent and developmentally responsive environment.

In order for Canonsburg Middle School to provide an academically excellent and developmentally responsive environment, we will strive to make the following steps:

- Create and communicate expectations to students and educators.
- Create learning opportunities that meet high academic standards.
- Create a learning environment of lifelong learners not only for students but also for educators.
- Develop varied approaches to instruct and assess students' proficiency and mastery of standards.
- Develop and implement a true middle school teaming philosophy where educators can collaborate and create quality learning opportunities for our students.
- Establish a strong parent and community support structure.
- Promote open communication with administration, teachers, parents, and students.
- Foster an environment that is supportive of all individuals in the school.
- Incorporate technology in the learning environment to promote the 21st century skills of collaboration, innovation, and communication, while establishing a global awareness in all students and educators.

Expect the Best!
